## **Construction Technique Service**

Every day, thousands of workers in construction, demolition and renovation projects around the world rely on Atlas Copco machines, products and services.

Reliability is a key factor, as time is precious and deadlines are tight. When conditions are tough, you need a partner you can trust.

Atlas Copco Construction Technique Service provides a first-class service, allowing you to minimize downtime and maximize productivity by having reliable machinery. Our offer includes a maintenance kit package, as well as service plans to keep your operating costs under control.

Our 24/7 Shop Online guarantees full accessibility to our genuine spare parts and consumables for daily operations. You can also count on our competent service technicians and service partners to ensure your equipment is running smoothly.

# The blood in your machine

## **Fluids and Lubricants**

Developed to match our maintenance specifications, Atlas Copco fluids and lubricants help protect your investment, keeping you productive and improving the resale value of your light tower.

- The correct fluids reduce equipment breakdowns and optimize your machine's performance.
- Quality fluids last longer and protect your product.
- Ordering from us simplifies the process and eliminates the need to work with multiple suppliers.

## Only genuine parts guarantee quality and high performance.

Our genuine Atlas Copco parts are manufactured to the same exact standards as our equipment and have passed the same endurance tests. Genuine parts avoid problems such as premature failures and lack of performance.

Using our genuine Atlas Copco parts has proven to be the best way to protect your investment from poor performance and to ensure your machine is working according to the original factory specifications.

## **Benefits:**

- Reduced operating costs
- Low equipment downtime
- Longer service life
- Increased resale value

## Service kits

Atlas Copco Kits are sets of spare parts for the most common repairs and maintenance operations, collected together in one box.

## **Preventive Maintenance Kits**

All-in-one box tailored to match your equipment.

Our Preventive Maintenance Kits contain all the parts required for the equipment's scheduled maintenance program. These kits are easy to obtain and attractively priced. When the repairs are carried out by one of our certified technicians, your machine can achieve maximum productivity.

## Wear & Repair Kits

Our Wear & Repair kits are a set of spare parts for the most common repair and replacement operations on your machine. Cost effective and convenient, these kits simplify the service process by ensuring you get what you need.

## **Upgrade Kits**

Our Upgrade Kits are an economical solution to ensure your equipment is up to date with the latest Atlas Copco technology. Upgrades integrate proven technological solutions that are readily available and easily installed. These upgrades will maximize your equipment's productivity and market value, as well as optimize your equipment's efficiency, increasing your profits.

## Search, find, order. It's that easy!

## **Parts Online**

Parts Online is a user-friendly platform that allows you to quickly and easily find spare parts for Atlas Copco construction equipment.

- Search spare parts

## Service Agreements

Servicing your machines regularly is important to ensure reliable operation and a long service life. With a proactive service and preventive maintenance routine, you can minimize the risk of higher production costs and breakdowns.

Atlas Copco has developed service agreements based on customer feedback, application knowhow, field support and product development.

To get the most out of your investment, select a service agreement that meets your requirements.

## **Upgrades**

Atlas Copco Upgrades offer you advanced technical solutions that will expand your business opportunities. These solutions are always developed with safety, the environment, performance and the cost of operation in mind.

Atlas Copco Upgrades keep your machine updated with our new solutions and technologies.

### **Overhauls**

Atlas Copco Overhauls gives the vital organs of your machine a second life by re-establishing the high-quality and reliable standards of a new machine. With a combination of genuine parts, experience and product knowledge, we guarantee your machine's performance and productivity.

## **Inspection Plan**

The Atlas Copco Inspection Plan complements your own maintenance program. You receive regular inspection visits, resulting in a comprehensive diagnostics report with recommendations.

### **Service Plan**

The Atlas Copco Service Plan offers on-time servicing by our factory-trained technicians or Service Partner, combined with the unrivaled quality of our genuine parts. Tailored to your application and site circumstances, the maintenance schedule always fits your needs, giving you more uptime, increased reliability and ultimately more productivity, all for a fixed periodic fee.

Through regular service reports we keep you up to date on your machine's status, allowing you to make informed decisions about your production efficiency.

#### **Parts Online**

User-friendly platform to find the spare parts and catalogues for construction equipment.

#### **Shop Online**

Handle your orders 24 hours a day. Fast, easy and safe.
