

Overview

The welcome page looks like below:

The screenshot shows the Atlas Copco Printshop interface. At the top is a blue header with the Atlas Copco logo and the text "Atlas Copco Printshop". Below the header is a navigation bar with links: "Atlas Copco Links", "Atlas Copco Photo Archive", "Help", and "Support". A callout box labeled "Menu bar" points to this navigation bar. Below the navigation bar is a search section with a text input field labeled "PMI search or free text" and a "Search" button. A callout box labeled "Free text search or search on article number" points to this search field. Below the search field are examples: "9800038501, 2935 0677 30 or Cobra". To the left of the search field is a "Search by product area" section with several dropdown menus: "Division:", "Document type:", "Product area", "Product group", and "Language". A "Search" button is at the bottom of this section. A callout box labeled "Search by filtering" points to these dropdown menus. Below the search and filtering sections is a "Log in" section with fields for "User name" and "Password", and a "Log in" button. There are also links for "Forgot password" and "To registration form". The main content area features the title "Atlas Copco Print Shop" and the subtitle "- Sales Material and Technical Documentation". Below this is a welcome message: "Welcome to Atlas Copco Print Shop. Here you can download PDF files of all our product brochures and technical documentation. Use the search fields to find the files you are looking for." Below the welcome message, it says "Internal users can obtain access to additional functions by logs". To the right of the text is a stack of product brochures. At the bottom right of the page, there is a footer with the text "Legal Notice, Privacy Policy, Copyright © 2000-2010 Atlas Copco AB".

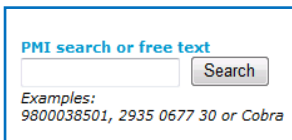

In this area it's possible to search for documents by using different search criteria and to download a low resolution PDF of each document in the system.

Search document

There are two different search options:

1. By free text or on brochure article number
2. By Product area where it's possible to filter the search on several levels

Free text search or article number

PMI search or free text

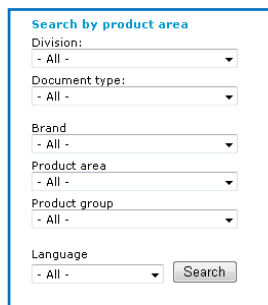

Search

Examples:
9800038501, 2935 0677 30 or Cobra

At least 2 characters or digits have to be typed in.

- When searching on an article number, it has to be specified from the beginning, and the search is automatically made with * as wildcard at the end.
- The free text search is automatically made with * as wildcard in both ends of the search string.

Product area search

Search by product area

Division:
- All -

Document type:
- All -

Brand
- All -

Product area
- All -

Product group
- All -

Language
- All -

Search

When using the Product area search, you make the search more and more detailed by filtering.

You always start at the top, with Division, then Document type, Brand, Product area and Product group. Language can be selected separately and is not affected by filtering the other categories.

If you don't want to use all categories, you just stop and leave the categories with the choice "- All -". When "- All -" is selected, it is not possible to filter out anything in the categories below that one.

Each time a selection is made, a filtering process is performed so that only valid choices are presented in the next field below.

Search result

The result of a search is shown in the area to the right of the page in the following way:

The screenshot shows a search interface with the following elements:

- Search Bar:** "PMI search or free text" with input "339006" and a "Search" button. Examples: "9800038501, 2935 0677 30 or Cobra".
- Search by product:** Filters for Division, Document type, Product area, Product group, and Language.
- Search Result:** "Click on a thumbnail to view or download a PDF. 1 2 3 4 5 6 7 8".
- Document Grid:** A grid of document thumbnails for "CC-combi cutters" and "Atlas Copco ProCare". Each entry includes a thumbnail, a language, and a filename (e.g., "3390 0607 01.pdf").

Callouts provide the following information:

- Language:** Points to the language filter dropdown.
- Thumbnail image which is also a hyperlink for downloading or viewing the low resolution PDF:** Points to a document thumbnail.
- Document description:** Points to the text "CC-combi cutters" above a thumbnail.
- Filename, which is also the article number of the printed matter:** Points to the filename "3390 0607 03.pdf" below a thumbnail.

Download PDF

It's possible to download a low resolution PDF of a document by searching for it and click on the thumbnail of the document in the Search result.

Select to save it or open it in your PDF viewer.
