

Moffett Building/Windows & Doors

Delivering **Confidence**

Moffett Building/Windows & Doors

The delivery of windows & doors often means your driver waiting until a forklift or other off-loading equipment becomes available or the vehicle getting stuck on a busy building site. **MOFFETT Truck-mounted Forklifts help you to make more deliveries and to reduce product damage.**

A 4-way system of driving allows your driver to deliver products into confined and narrow spaces, exactly where they are needed.

Windows & Doors

For more than 40 years, Moffett has been manufacturing Truck-mounted Forklifts, a load handling solution that has helped transform the way materials are distributed across the globe.

The MOFFETT is designed for heavy products and long loads such as windows & doors, pallets of timber or bricks and blocks. The All-wheel drive ensures you don't get stuck in the mud and gives excellent traction and stability. Using a MOFFETT also saves the wear and tear on your truck by keeping it off-site and helps to improve delivery scheduling.

MOFFETT Truck-mounted Forklifts give the driver complete independence, therefore enabling them to handle a whole range of building products quickly and efficiently without any additional loading devices.

On site, your Truck-mounted Forklift is ready to get to work in less than a minute. Your MOFFETT Truck-mounted Forklift can be carried on the back of almost any truck or trailer with no loss of load space.

Having a MOFFETT Truck-mounted Forklift means you can have faster, safer and more cost effective deliveries.

With its high lift capacity, robust design and a wide range of attachments such as clamps, different fork options and positioners, the MOFFETT Truck-mounted Forklift easily handles just about any product on site or in the yard.

- No loss of load space
- No waiting for a customer's or supplier's forklift
- Flexibility and control of delivery schedules
- Higher productivity
- Creates time to make more deliveries
- Delivery where needed, precise load positioning
- Reduce product damage
- Safe and easy to use
- A proven competitive advantage
