

THE WORLD'S MOST MODERN FAMILY OF SKIPLOADERS THE MULTILIFT FUTURA RANGE

MEET THE NEW GENERATION

MULTILIFT Futura are a new generation of skiploaders designed to give you more payload. Smart construction and a service-friendly design make it easy to save on fuel, slash CO₂ emissions and optimise your total cost of ownership. No matter what you haul, there's a member of the Futura family to meet your needs.

MULTILIFT FUTURA 8

SMALL IN SIZE, BIG ON PERFORMANCE

MULTILIFT Futura 8 is a lean yet strong skip-loader that is ideal for urban use within confined city streets. Its EvoLight™ construction gives you more payload without compromising strength – so you can haul more while saving fuel and lowering your CO₂ emissions.

MULTILIFT FUTURA 12

POWER AND FLEXIBILITY IN PERFECT COMBINATION

MULTILIFT Futura 12 combines good looks, street smarts and forward thinking. Leading the way in skiphandling, it features a long list of design innovations that ensure the highest durability, professional appearance, top performance and safe, easy, fast operation.

MULTILIFT FUTURA 18

PURE POWER AND PERFORMANCE

MULTILIFT Futura 18 is the mightiest in its class – the ‘big brother’ of the Futura family that can lift up to a colossal 18 tonnes. You need fewer trips to haul the same payload, reducing both fuel costs and the emissions. And smart construction means it’s as nimble as it is strong.

100 INNOVATIONS TO H

As the world's most modern family of skiploaders, all MULTILIFT Futura models come with cutting-edge design features. Many of them you can see, but even more are behind the scenes. Together, they ensure you get a skiploader that is built to perform – today and tomorrow.

These pages show just a few of the advancements on the different MULTILIFT Futura models. Contact your local dealer for information about more of our innovations and to find out which features are available for each skiploader.

The world's most modern family of skiploaders

CostWise™ for quicker Return On Investment

The MULTILIFT Futura range is purpose-built to be easy on your wallet. These skiploaders deliver leading edge performance, while providing a quicker return on your investment and reducing total cost of ownership.

- Small initial investment
- Lower fuel needs, which also means reduces CO₂ emissions
- In some markets, you may enjoy reduced road taxes
- No need to employ operators with a higher certification

MaxPerformance™ puts you in a league above

Your MULTILIFT Futura comes ready-made for ultimate performance, loaded with built-in capabilities of the highest degree. With the strength you need to haul bigger loads, you could say that outperforming the competition is included as a standard feature.

- Greater payload enables increased productivity with decreased fuel consumption
- The skiploader is specially designed for easy service and maintenance to maximize your uptime
- Available with a wide range of options to further enhance performance

HELP YOU PERFORM

SwanNeck™

increases reach

With the distinctive MULTILIFT SwanNeck™ design, you can go further than the competition. Literally. The precisely calculated curve in combination with the extra-long telescopic arms increases the skip-loader's reach in container handling while maintaining perfect stability – even when lifting over fences and obstacles, or from an unaligned angle.

SkipTop™

covers any load – automatic, fast and safe

With just the touch of a button, SkipTop™ makes it automatic, fast and safe to cover any load. With no need to climb up and wrestle with covers and ropes, SkipTop™ saves your time and your back. Not to mention setting higher safety standards on the road.

- Bolt-on interface
- Safe to operate with radio controls with a higher certification

EasyService™

for higher uptime

Because MULTILIFT Futura skip-loaders are extremely easy to service and maintain, they shorten the time it takes for routine checks and accessing key components.

- Service-friendly design to optimise total cost of ownership
- Service points easily accessible
- Wide range of retrofit options
- Hydraulic design concept based on hoses for easy serviceability

EvoLight™

construction means more payload

The completely redesigned light-weight steel construction of the MULTILIFT Futura family gives you more payload capacity without compromising strength. That means you can haul more while saving fuel and reducing CO₂ emissions.

- Lightweight, high-strength steel construction
- Optimised cylinders
- More payload capacity
- Steel castings to strengthen and streamline construction

FlexControl™

offers freedom of control

FlexControl™ gives you freedom to customise your skiploader – paying only for what you need when you need it, as the modular system makes retrofitting easy. Control options even include the possibility to have outside, in-cab, radio remote controls, or a customised combination.

- Cab, radio, or outside controls
- Fast-speed offload
- Indicative weighing
- Automatic speed control

SafetyPlus™

boosts safety for both operator and surroundings

Safety, both for the operator and their surroundings, is paramount for MULTILIFT. The MULTILIFT Futura range adds leading-edge safety innovations, such as hydraulic side stops, hydraulic container lock and precise controls combined with safety interlocks.

- Rated lashing points
- Hydraulic side stops
- Hydraulic rear lock
- Manually adjustable and locked container side and front stops
- Pneumatic safety latch for tipping hook

DESIGNED TO KEEP YOU ON THE MOVE

Technical data

	Futura 8		Futura 12			Futura 18		
Vehicle type	2 axle		2 axle			3 axle

DELIVER AS PROMISED WITH HIAB SERVICES

When you invest in a MULTILIFT Futura, you invest in modern performance to fulfil your commitments to your customers – every single day. With Hiab Services, we are here for you throughout your equipment lifecycle, giving the uptime and reliability you demand. Our worldwide network of experts can support you whenever and wherever you need us with three service areas to keep you running as planned and even boost your success:

Lifecycle Services – supporting you from installation to predictive maintenance and all the way to extending the lifetime of your MULTILIFT Futura

Original Parts – ensuring your MULTILIFT Futura stays the same high-performing product you invested in from the start

Connected Services – keeping you one step ahead with next-generation intelligence to further enhance productivity, efficiency and safety for your business.

Support from start to finish

Our aim is always to keep you moving, year in and year out. That's why we offer Hiab ProCare™ – your best assurance to produce as planned. With a Hiab ProCare™ service agreement, we can take on the burden of inspections, planned maintenance, scheduling and more, so you can rest assured of your ability to deliver as promised.

Contact your local dealer to learn more about the availability of Hiab ProCare™ and to find the level of service agreement that makes sense for your business.

BUILT TO PERFORM

Hiab is the world's leading provider of on-road load-handling equipment, intelligent services and digitally connected solutions. Hiab's offering encompasses class-leading load handling equipment including HIAB loader cranes, LOGLIFT and JONSERED forestry and recycling cranes, MOFFETT truck-mounted forklifts, MULTILIFT demountables, and tail lifts under ZEPRO, DEL, and WALTCO brands. As the industry pioneer, our commitment is to increase efficiency in our customers' businesses and to shape the future of intelligent load handling.
