

MULTILIFT XR 3S

XR LIGHT-RANGE HOOKLIFTS

MORE FUNCTIONALITY FOR LIGHT COMMERCIAL VEHICLES

Enhance your 4.5 tonne light truck functionality by fitting a MULTILIFT XR 3S hooklift on it. Transport machinery, lift heavy loads, or tip materials. XR 3S masters it all with ease.

Small in size but a giant in performance

The MULTILIFT XR 3S enhances your light truck's functionality up to a level recognized from heavy trucks. Now you can load the body on the ground with low height and drive the machinery onto the body or platform. XR 3S lifts it onto the truck for you, and can also tip the goods when needed. Plus, with suitable special bodies, you can perform multiple tasks in situations where you previously needed several trucks. So you gain improved efficiency with better profitability.

Increased versatility and larger payloads

Using the latest 3D-CAD methods and modern production technology to design and manufacture the XR Light-Range, we have minimised the welding needed in construction to give you a stronger structure. The exceptional low weight to high strength ratio enables larger payloads, enhances the versatility of the vehicle and maximises its rentability.

Safety is key

As in all MULTILIFT demountables, safety is a key priority in the XR-series. Safety features include load-holding valves directly on the cylinders and a tipping lock mechanism. The XR-series meets all the minimum requirements of the EU's Directive on the Safety of Machinery.

Technical data

Type	XR 3S		
Capacity (kg)	3000		
Gvw of the vehicle (t)	4.5		
Container length (internal) (m)	3.0	3.0 - 3.5	3.5 - 4.0
G-length (mm)	2700	2950	3200
Equipment weight (kg)	400	420	440
Tipping angle (°)	49	49	47
Hook height (mm)	930		
Body level (mm)	135		
Max. operating pressure (mpa)	25		
Recommended oil flow (l/min)	15 - 20
